

MIL/MC3205-BB2590 Military Battery Charger

- 2 way charger for military Lithium Ion BB-2590 batteries
- 115/230V ac, 24V dc input supply
- Robust construction and easy grip handles for portability
- Vehicle mounting kit and battery mount tray options

Functions include:

- Pre charge test – to check battery fit to charge
- Constant current charge, with timer over ride
- Constant voltage charge with timer over ride

Function	Value
Nominal battery voltage	24V
Constant current charge current	1.0A per section
Constant voltage charge voltage	16.8V per section
Charge termination	When current drops to 50mA with 5 hour timer back up
Number of batteries	2
Connections	Flying lead
Output power	70 Watts
AC supply voltage	110V/230V ac internally switched 50/60Hz
Environmental	Shock and vibration to MIL-Std 810E
DC supply voltage	20V to 32V
Charging temperature	0°C to +50°C
Storage temperature	-20°C to +70°C
