

MIL/MC3205 Military Battery Charger

- 2 way charger for military Lithium Ion Clansman batteries
- 115/230V ac, 12/24V dc input supply
- Robust construction and easy grip handles for portability

Functions include:

- Pre charge test – to check battery fit to charge
- Constant current charge, with timer over ride
- Constant voltage charge with timer over ride
- Output 2 may be used as 24V 1.7A power supply

| Function | Value |
|---------------------------------|--|
| Nominal battery voltage | 24V |
| Constant current charge current | 1.7A |
| Constant voltage charge voltage | 200mA – depends on battery |
| Charge termination | When current drops to 85mA with 5 hour timer back up |
| Number of channels | 2 |
| Connections | Flying lead |
| Output power | 100 Watts |
| AC supply voltage | 110V/230V ac internally switched 50/60Hz |
| Environmental | Sealed to IP55, Shock and vibration to MIL-Std 810E |
| DC supply voltage | 11V to 32V |
| Charging temperature | -10°C to +55°C |
| Storage temperature | -20°C to +70°C |
